

MUNICIPAL DISTRICT OF PEACE NO.135

AMENDED BY: Barbara Johnson	ADOPTED BY: Council	NUMBER: PW – 11
TITLE: Dust Control Policy		DATE: May 14, 2019

PURPOSE OF THIS POLICY:

To outline the use and application of dust control agents on municipal roads

POLICY STATEMENT:

1. The MD of Peace will provide for the application of dust control agents in front of residences on an annual basis, upon receipt of a completed application form and fee, both which must be received by the Municipal Office by April 30th each year. Council sets the fee annually, said fee which is established in the Fees and Charges Bylaw.
2. The minimum distance which can be requested is 100 metres and the application width is 6 metres. Dust control agents are normally applied after the lifting of spring road bans and as material and equipment becomes available.
3. The MD of Peace does not guarantee the effectiveness of the dust control agent. The type of dust control agent applied to any site will be determined by the Public Works Foreman and CAO. Once the agent has been applied to the road surface, no refunds will be made. All efforts will be made to increase the longevity of the treated area; however, if the need arises, the said portion of treated roadway will be graded to minimize hazards for vehicular traffic.
4. Residents in the Village of Berwyn requesting the application of dust control agents in front of their residences must have the prior written approval of the Village of Berwyn CAO.
5. Annually, in early spring the MD will contact the previous year’s users of the dust control program, as well as advertising the availability of the program in the current methods used by the MD (e.g. website, facebook, quarter page ad in local newspaper).
