F. DISPUTE RESOLUTION:

- a. the interpretation, implementation or application of the Framework, and
- b. any contravention or alleged contravention of the framework.

The intent of the dispute resolution process is to facilitate mediation and a resolution at the municipal (local) level before arbitration is utilized. This process assumes that each municipality will have differences

of opinion and a resolution mechanism may be necessary. It is important that throughout the various processes of dispute resolution, all parties engaged to resolve disputes are mindful of and respect the rights of the private interests involved.

Any matters regarding dispute resolution which are not addressed specifically within this dispute resolution process shall be addressed per Part 17.2 Intermunicipal Collaboration of the *Municipal Government Act* or the Intermunicipal Collaboration Framework Regulation.

1. The Village of Berwyn and Municipal District of Peace No. 135 are committed to resolving any disputes in a non-adversarial and cost-efficient manner.
2. The Village and the MD shall make all reasonable efforts to resolve all disputes by negotiation and agree to provide, without prejudice, open and timely disclosure of relevant facts, information and documents to facilitate negotiations.
3. In the event of a dispute, the following process shall be followed:
 - a. At any time during the dispute resolution process, either municipality shall be able to initiate a formal mediation process through a third-party to attempt to resolve the issue/dispute.
 - b. When a potential intermunicipal dispute arises regarding a technical or procedural matter, including a clerical error or any misinterpretation of this ICF or any other servicing agreements between the Village and the MD, it will be directed to the Chief Administrative Officer (CAO) of each municipality.
 - c. If a dispute relating to servicing agreements between the Village and the MD cannot be resolved by the respective CAOs, the municipality who identified the issue shall request that a joint Council meeting be scheduled to discuss the dispute/issue. At such time, within 14 days of the joint Council meeting being requested, the Councils shall meet and review the issue and attempt to resolve it through consensus.
 - d. If a dispute cannot be resolved by a joint meeting of the Councils, a mediator shall be obtained to resolve the dispute.
 - e. If mediation is unsuccessful, binding arbitration shall be utilized to resolve the dispute.
4. Should mediation be necessary, both municipalities shall agree upon the mediator, or if they cannot agree, the Minister of Municipal Affairs shall choose the mediator. The cost of the mediator shall be shared equally between the parties.
5. Should arbitration be necessary, both municipalities shall agree upon the arbitrator, or if they cannot agree, the Minister of Municipal Affairs shall choose the arbitrator. The cost of the arbitrator shall be shared equally between the parties.
6. Any and all decisions made by an arbitrator shall be binding to all parties.

G. FILING OF INTERMUNICIPAL DEVELOPMENT PLAN

As per Section 708.3(l) of the *MGA*, a framework is not complete unless the Councils of the municipalities that are party to the Framework have also adopted an intermunicipal development plan under Section 631 or an intermunicipal development plan is included as an appendix to the Framework.

To comply with this section of the *MGA*, an IDP which both municipalities agree to, will be attached to the ICF in the appendices whereby the bylaw adopting the ICF will also adopt the IDP.
