Subject: Office Space to Rent

Good afternoon,

I work remotely for my employer and I am searching for office space to rent out. All I need is a desk where I could set up a couple of monitors and my laptop. I am curious if the MD of Peace had a spare office I could rent, maybe in the old MD building?

Thank you for your time

-Kyle Davies

Subject: RE: Office Space to Rent

Haha for sure Barb, it's becoming a different work place! Here is the additional information you requested

I'm assuming you would require wifi or would you tether onto your phone's data?

If internet is available that would be beneficial, if not I can figure something out (tethering is an option)

How soon would you require an office?

I would like to set up an office as soon as I can but that being said I am set up at home and can wait

Would you be keeping regular office hours and would there be any other individuals (public or company) who would require access into the building?

It will only be me, no coworkers or public will need access. It will be during regular business hours. I do work late nights occasionally but if you prefer me coming in during MD hours, that is fine as well.

What kind of rent would you reasonably expect to pay for office space in our old office building?

Depends. Does the office come with furniture or access to internet or printer? Like I mention in my early email, just looking for a space to set up monitors/ free of home distractions. I was hoping a few hundred but let me know what you and the Council are thinking I can ask my supervisor for approval.

Thanks again Barb, looking forward to hearing back from you and let me know if you require any additional information.
