

	<b>MUNICIPAL DISTRICT OF PEACE NO. 135</b>	
<b>PREPARED BY:</b> TEPROW Co-ordination Inc	<b>ADOPTED BY:</b>  COUNCIL	<b>NUMBER:</b> ADM - 31  Page 1 of 1
<b>TITLE:</b> Telecommunication Attachments to Municipal and Private Infrastructure within Municipal Rights-of-Way and to Municipal Facilities	<b>DATED:</b> January 12, 2021	

**PURPOSE OF THIS POLICY:**

To allow the attachment of telecommunications equipment to municipal infrastructure and privately-owned infrastructure within municipal rights-of-way.

**POLICY STATEMENT:**

The Municipality will allow telecommunication companies to attach equipment to municipal infrastructure and/or privately-owned infrastructure within municipal road rights-of-way, and to municipal facilities under the following guidelines:

- a) the Federation of Canadian Municipalities / Canadian Wireless Telecommunications Association Antenna System Siting Protocol Template that aligns with the federal government's *Canada's Antenna Siting Policy* shall be followed.
- b) the telecommunication company acknowledges the role of the Municipal District in its land-use authority as outlined in the Template and in Innovation, Science and Economic Development Canada's CPC-2-0-03 Issue 4.
- c) all applicable municipal, provincial, and federal standards shall be followed.

Requests for attaching telecommunication equipment to municipal infrastructure must have the prior approval of Council. The telecommunication carrier requesting such attachment shall sign a Licence Agreement and meet all responsibilities outlined in that Agreement and any permits required for the telecommunication attachment.

The applicant must also conduct public consultation as deemed necessary by the Municipality.
